- Knowledge in Data Structures & Algorithms
- Experience in UNIX Shell Scripting and Linux systems

Technical Skills

-**Languages and Scripting:** Java, Python, HTML, CSS, Javascript, C, UNIX Shell Scripting
-**Tools and Technologies:** Eclipse, Visual Studio Code, MS Visual Studio, Figma
-**Libraries and Frameworks:** jQuery, React JS, Django, Material UI
-**Soft Skills:** Communication, Time Management, Problem Solving, Management, Collaboration, Self-Learning, Leadership, Organization

PROJECTS

1. **Project Title: Movie Search Tool**

Description: Developed a Movie Search Tool using React and Material-UI that allows users to search for movies, view movie details, and learn more about the movie industry. Utilized the Movie Database (TMDB) API for fetching movie data and React Router for navigation. Implemented responsive design for a seamless user experience on both desktop and mobile devices.

Features:

- Implemented a responsive Navbar with a search bar for user input.
- Utilized React Router to navigate between different views: Home, Search, About, and Movie Details.
- Designed a visually appealing UI with Material-UI components and custom styling.
- Developed a Movie Details view to display information about a selected movie, including its poster, overview, and release date.
- Integrated reusable components, such as Hero and MovieCard, for consistent UI across views.

Technologies Used:

- React
- Material-UI
- React Router Dom

2. **Project Title: Django Login System**

Description: Built a robust authentication and authorization system using Django framework. Implemented secure user registration and login functionalities, ensuring data privacy through hashed passwords and token-based authentication. Employed session management and user roles to control access to various parts of the application, enhancing overall security and user experience.

WORK EXPERIENCE
Quiktrip, Duluth, GA   October 2015 – Present
    Clerk Trainer
- Conducted comprehensive training on EPIC functions, time clock usage, and POS functionality for new clerks, resulting in a streamlined onboarding process.
- Managed trainee schedules, fostering efficient training timelines and ensuring adequate coverage during shifts.
- Troubleshot computers and POS systems, swiftly resolving technical issues to minimize disruptions in store operations.
- Demonstrated conflict resolution skills, effectively resolving issues among trainees and cultivating a positive team environment.
